

## RAYMOND

The site of the One Million Dollar Factory of the Canadian Sugar Factor-  
ies, Ltd. In the center of  
the best-raising district of  
Southern Alberta.

# Raymond Recorder

## RAYMOND

A live town in a rich agri-  
cultural and stock-raising  
district. A good place  
to make your home.

Vol. 29

FRIDAY, MAY 9, 1930

No 12

## News Notes

Palmer and Larson's Billiard Par-  
or was freshly kalsomined last week.

Frank Leavitt was out dragging  
the roads on Tuesday this week.

Softball is getting well under way  
here now and a lot of interest is being  
aroused.

H. F. Allen is having a porch built  
on the east side of his house over the  
door.

Wheat and Beets are showing a fine  
standing this spring and both crops  
look very strong and healthy.

Dr. G. W. Leech arrived home Sat-  
urday evening after attending the fun-  
eral of his brother J. H. Leech in  
Winnipeg.

Despite the heavy downpour of rain  
on Saturday afternoon and evening  
the roads on Monday were dry except  
an occasional low place still muddy.

D. H. Elton, K. C. Lethbridge, has  
been appointed the Returning Officer  
for the Lethbridge Federal riding in  
the next Dominion Election.

The drag was out on the road be-  
tween Welling and Magrath on Mon-  
day, and made the road a great deal  
smoother.

A mammoth celebration is being  
planned for Dominion Day at Ray-  
mond. Make your plans to stay at  
home or you will miss something  
really good.

Dean Lamb's house was moved  
last week from the south street facing  
to a position just west of his father's  
house facing north. Tractors were  
used to do the moving.

Mesdames H. S. Allen and T. J.  
O'Brien, and Pres J. W. Evans were  
the speakers in the First Ward M. I.  
A. Conjoint meeting Sunday evening.  
Their talks were on Faith-Promoting  
incidents.

C. R. Wig was in the Lethbridge  
Northern and Taber-Barnwell district  
last week on a little publicity tour,  
to increase the use of Alberta Sugar  
in Alberta homes. "C. R." says the seed  
bed for beets has never been quite as  
good as it is this year.

Magrath's new High School is just  
about completed and is a distinct  
credit to the Garden City. The Gym  
is one of the nicest we have ever vis-  
ited and the other appointments of the  
building are very nice indeed. The of-  
ficial opening was Wednesday evening,  
and the Student Body are having a  
Traffic Bal there tonight, Friday.

Max Hill of Taber was drowned on  
Saturday, May 3, in the Old Man  
River while trying to pull two calves  
out of the high water. Comrades tried  
to assist him but the ford was so deep  
and the undertow so swift that they  
had great difficulty in saving them-  
selves. Deceased was 28 years old and  
well known in the Taber district.

## TWENTY YEARS ON THRONE OBSERVED IN HONOR OF KING

London, May 6.—All warships in  
British ports were full-dressed today  
and naval and military royal salutes  
were fired in honor of the 20th anniv-  
ersary of King George's ascension to  
the throne.

The King drove by automobile from  
Buckingham Palace to Newmarket  
to attend the spring race meeting.  
It was the first race meeting he had  
attended since his illness.

A crowd at the palace gates cheered  
him and he smiled acknowledgement.  
The fact that the King attended an  
open air meet despite the rather chilly  
weather and lack of sunshine was  
taken to indicate that his health was  
excellent.

Before the King went to Newmark-  
et, he and Queen Mary held an audi-  
ence for more than 100 persons of  
the Buckingham Palace Windsor.  
Sandringham Balmoral households re-  
ceived long service medals.—Calgary  
Herald.

## White Lunch Challenge Trophy Centre of Interest Again This Year

### PICTURE BUTTE WILL DEFEND WHITE LUNCH CUP AGAINST RED SOX HERE ON VICTORIA DAY IN DOUBLEHEADER

Slugging "Northern Nine" Will Be  
on Deck to Fry Lid Off Season in  
Classic Style—Trustees Meet and Re-  
arrange Rules Governing Play for  
Challenge Trophy, One Transfer Only  
to Be Made From Team to Team Is  
New Important Clause

The first game for the White Lunch  
challenge cup will be played on Hea-  
derson Park diamond on May 24, if  
plans made by the trustees of the cup  
at a meeting in Lethbridge on Satur-  
day are carried out.

Picture Butte, holders of the cup,  
will defend it in a double-header on  
the Lethbridge diamond on the holi-  
day, with the Red Sox acting on the  
challenging end of the role. Definite  
announcement from the Red Sox' man-  
agement that this is satisfactory is  
all that is now awaited.

At the meeting a number of impor-  
tant changes in the rules governing the  
cup were made. A three-dollar fee  
to cover secretarial expenses must  
accompany all challenges. A three-  
day clear lay-off between each series  
is now in effect instead of 48 hours  
as formerly.

The most important change, how-  
ever, has to do with registration of  
players. Last year teams were loaned  
holus boles by one team to another  
challenging team, and this was the  
cause of much dissatisfaction. The  
new clause nine in the rules is in-  
serted to avert this cause of dissatis-  
faction.

Here are the new rules and regu-  
lons governing the White Lunch Chal-  
enge Cup:

1. This cup shall be a perpetual  
cup.
2. The cup may be competed for by  
any baseball team in that part of Al-  
berta south of a line drawn east and  
west through the town of Vulcan and  
west of a line drawn north and south  
through the town of Bow Island, both  
the mentioned towns being included.
3. A fee of three dollars shall accom-  
pany each challenge.
4. The team winning the cup in any  
series shall be the holder of the cup  
until it is won by a challenging team  
taking two games out of three in the  
series.
5. The challenge period shall be be-

tween May 24 and August 15.

6. The holders of the cup shall be  
entitled to three days clear notice  
from the secretary of the trustees  
committee before being called upon to  
defend the cup.

7. All challenges shall be in writ-  
ing to the secretary, who shall im-  
mediately notify the cup holders and set  
the dates on which the games are to  
be played, immediately notifying the  
challenging team of the dates so set.

8. Challenges will be dealt with in  
order in which they are received by  
the secretary.

9. The manager of a challenging  
team shall register with the secretary  
a list of players. This list shall be in  
the secretary's hands for two weeks  
before the team participates in a  
White Lunch Cup game. Transfers of  
players from one team to another may  
be arranged by notifying the secre-  
tary, but no player who has not been  
so registered for a clear period of two  
weeks with the team to which he is  
transferred shall be eligible to play in  
a cup game. Only one transfer shall  
be granted to any player during the  
season.

10. There shall be three clear days  
between the playing of series for the  
cup.

11. Three games (if necessary) in  
any series must be played on (two con-  
secutive days unless weather inter-  
feres).

12. Umpires shall be named by the  
trustees and shall have complete  
charge of all games.

13. Gate receipts shall be divided  
60 p.c. to the winners and 40 p.c. to the  
losers in any series after the umpires  
are paid. The gate shall be handled  
by a representative of each competing  
team.

14. The home team shall be respon-  
sible for the payment of umpires and  
supplying the balls.

15. Umpires shall submit a report  
on each series to the secretary.

16. All games shall be played on the  
home grounds of the cup holders.

17. In the event of a dispute the  
trustees shall be the final arbiters.

18. League rules will govern all  
games.

BOARD OF TRUSTEES  
Dr. V. F. Swancosky, Barons,  
Chairman.  
H. G. Long, Lethbridge.  
J. N. Pollock, Picture Butte,  
Secretary.  
—Lethbridge Herald.

### ESSAYS ON MOUTH HEALTH

The reports are out now on the  
essays on Mouth Health which were  
written during the Mouth Health Cam-  
paign sponsored recently by the  
Provincial Department of Health.

The district winner was Miss Derl  
Winter, Grade VIII of the Central  
High School, Lethbridge.

Our local dentist Dr. F. M. Hall  
offered three prizes for the best essay  
from the Raymond schools, and these  
prizes went to Wayne Wooley, 1st;  
Eugene Marquidson, 2nd; and Beat-  
rice Card, 3rd.

Elsewhere in this issue will be found  
the essay of Wayne Wooley. Its per-  
sonal is well worth while as it shows  
that the present generation have a  
very clear conception of the value of  
teeth and their proper care.

### "THE VIRGINIAN" IS BIG TREAT IN STORE FOR CAPITOL PATRONS

Audiences at the Capitol Theatre  
will have the opportunity the last  
half of this week to learn whether  
pre-view critics were correct when they  
said that "The Virginian" is "The  
Covered Wagon" of all talking pic-  
tures. The Owen Wister classic of  
ranges has all the ear-marks of an  
epic film. The manner in which it  
pioneers days on the Western cattle  
was acclaimed by previewers indica-  
tes that it will go high on the list of  
really greats.

The film, based on the novel by the  
same name which brought Owen  
Wister quick fame in the 80's, and  
which has since been termed the great  
American romance, enjoys the dis-  
tinction of being the first all-outdoors  
play to be recorded on the audible  
films.

But its greatest claim to all-time  
honors lies in its general perfection  
in every department. There is a great  
cast—Gary Cooper, Walter Huston,  
Richard Arlen, Mary Brian, Eugene  
Pallette, Chester Conklin, E. H. Cal-  
vert, Helen Ware—a superb group  
of artists who have proved their worth  
on the stage and the talking screen.  
There is masterful direction, by Vic-  
tor Fleming, a genius in his art. There  
is tense drama, rich romance, rollick-  
ing humor—and the theme is one  
which deals with an exact chapter  
in American pioneer days.

## GUARDING THE SENTINELS OF HEALTH

(By Wayne Wooley)

Never tiring, at the sole entrance  
of the world's greatest castle, stand  
two ranks of sentinels in flashing  
white armor. Nothing may enter with-  
out their permission. They control  
the well being of all other parts in  
this marvellous castle. But like all  
sentinels, they must be cared for.  
They must be fed wholesome food;  
they must be kept clean—their armor  
must always be flashy and white—for  
if not, weak spots will develop and  
the swords of the enemy will soon de-  
stroy the sentinels. Once past these  
guards, the enemy can speedily and  
easily destroy the castle. What then  
is necessary to guard and preserve  
these most essential sentinels—the  
teeth?

The first and fundamental thing to  
do to keep them in good health is to  
nourish them properly. Some regard  
teeth as inert, lifeless material. But  
this is not so. They are fully alive;  
they have feeling; and the readily re-  
spond to proper feeding and care.  
Tiny blood vessels, penetrating to all  
parts of the tooth, carry the food that  
is so essential for growth and strength.  
Deprived of these foods, the tooth  
becomes weak, and is easily overcome  
by the myriads of enemies—bacteria  
—swarming around it. This then, is  
the first thing to be done towards pre-  
serving the teeth: you must supply  
them with the necessary food for de-  
velopment. Since teeth are composed  
mainly of calcium and phosphorus,  
these minerals should be abundantly  
present in the diet. Milk is perhaps  
the best source of lime; cereals and  
green, leafy vegetables supply the re-  
quirement of phosphorus. Highly  
sweetened, artificial foods contain  
little nourishment for teeth. The best  
foods of all are the rough natural  
foods that Nature first intended us to  
use. "Back to natural foods" is the  
best slogan for all who would properly  
nourish their teeth.

But just as the human sentinel  
needs more than food to remain effi-  
cient, so also the white armored sen-  
tinel of health, to be able to function  
properly, must receive more than just  
proper nourishment. No sentinel of  
old, guarding his castle's entrance  
heathed from top to toe in gleaming  
steel could have withstood an attack  
if his armor had been stored in a  
dark, damp corner where rust had had  
his chance to weaken the steel. At  
the first onslaught, an enemy's sword  
would have found the vulnerable spot,  
and would have smitten the sentinel  
down. So also it is with the teeth.  
Heathed in their hard, white armor of  
enamel. With proper care they will  
resist all attacks of decay; without it  
they will soon be rendered useless.

Doubtless, the reader uses a tooth  
brush. But just how does he use it?  
The ordinary back-and-forth move-  
ment is inadequate, for it fails to clean  
the spaces between the teeth. To re-  
ach these spaces, an up-and-down mo-  
vement, accompanied by a rolling mo-  
tion, must be employed. The gums also  
must be brushed, not only to cleanse  
the mouth thoroughly, but also to stim-  
ulate circulation in the teeth. Circu-  
lation must be stimulated, or the health  
of the teeth cannot be maintained.  
Another item of vital importance in  
cleaning the teeth is the choice of a  
proper dentifrice. Some tooth pastes  
do more to injure the teeth than to  
benefit them. They are so coarse that  
they injure the enamel; and thus de-  
cay is hastened. Yet an efficient den-  
tiffice may be made by dissolving one-  
fourth teaspoonful of table salt in  
one half glass of water. Such a solu-  
tion cleans the teeth well without in-  
juring the enamel. The mouth cannot  
be cleaned with a cheaper and more  
efficient dentiffice.

But before you may be absolutely  
certain that your teeth are properly  
cared for, you must visit a dentist at  
regular intervals. The most precise  
care may fail to keep the teeth in  
perfect health. It is for this reason—  
to discover any possible weakness—  
that regular visits to the dentist must  
be made. He alone can detect those  
small cavities and cracks that end in  
fatal decay. He alone can remove the  
"thin films that unavoidably collect on  
the teeth. He alone can advise you in  
time of the beginning of disease that  
may last through a life time. He is a  
friend and a trusty advisor; not a  
greedy, corrupt extortioner. He is at

## YELLOW TRAIL OUTLOOK ONCE MORE SCANNED

Delegation Headed by Member for  
Cardston Visits on Premier

### LETHBRIDGE NORTHERN DELEGATION IS HEARD

Residents along the Lethbridge-Card-  
ston trail have not given up hope of  
securing a gravelled secondary high  
way. When it was learned that Prem-  
ier Brownlee was coming to Leth-  
bridge on Monday, a delegation from  
the south towns, led by George L.  
Stringham, member for Cardston con-  
stituency, N. E. Blaxall, president of  
Magrath Board of Trade, and others,  
including President Baillie of the Leth-  
bridge Board of Trade, waited upon  
him and discussed the problem fully.

While the Premier was unable to  
make any promises, he told the Her-  
ald afterward that he would take the  
question of the Yellow Trail up with  
Hon. O. L. McPherson, minister of  
public works, on his return to the  
capital. The members of the delega-  
tion were quite hopeful that a scheme  
could be worked out which would  
make the construction of the highway  
possible despite the many disappoint-  
ments of the past.

While here Premier Brownlee also  
met a deputation from the Lethbridge  
Northern ratepayers, headed by J. I.  
McDermott of Coalhurst, and discus-  
sed matters affecting the project with  
them. He also had a conference with  
James Pike, manager of the Leth-  
bridge Northern colonization branch.

Political activity was also evident  
and during the evening the Premier  
had an unofficial conference with a  
number of U.F.A. supporters living in  
Lethbridge. What the purport of the  
meeting was, the Herald could not  
learn, but it is believed that the pos-  
sibility of putting a government candi-  
date in the field was canvassed. Such  
a possibility has already been hinted  
at in the Herald.—Lethbridge Herald.

## 1932 WORLD'S GRAIN SHOW NOTES

It may be opportune to point out  
that all exhibits for the World's Grain  
Exhibition and Conference to be held  
at Regina from July 25 to August 6,  
1932, must be on the grounds in Reg-  
ina on or before March 1, 1932. There  
are no exceptions. This applies to all  
classes in the prize list. The seasons  
of 1930 and 1931 only remain during  
which to grow the samples.

Secure as pure seed as possible.  
This will save a great deal of work  
later because there will not be so  
many impurities to rogue out of the  
crop. Registered seed is not demanded  
as there are many countries that do  
not have registered seed systems like  
ours and there are some good vari-  
eties, such as Reward wheat and Gopher  
oats, that are not eligible for registra-  
tion in Canada; but when it is possible  
it would be well to use registered seed.  
The seed sown should be thoroughly  
cleaned, selected and disinfected. Good  
healthy seed has the best chance to  
produce a good quality crop. Hints for  
EXHIBITORS by the Sask. Com-  
mittee of the World's Grain Show.

The British headmasters who are  
on a tour through Canada are intens-  
ely interested in the 1932 World's  
Grain Show. While in Regina they  
were provided with copies of the An-  
nouncement and Prize List. There  
were fifteen in the party and the com-  
bined attendance of boys at the sch-  
ools over which they have supervision  
is close to 10,000, many of whom are  
the sons of parents directly interested  
in agriculture.

Cream prices at the City Dairy,  
Lethbridge, last week were Special 35  
No. 1, 33c, No. 2, 30 to 28c. Other  
points were from 32 for special to 25  
for No. 2.

once the sergeant, the physician, and  
the repairman for that essential band  
of sentinels.

All these things, then, must be done  
to guard the sentinels of health. They  
must be properly nourished; they  
must be properly cleaned; and they  
must be examined regularly by a  
dentist. "A lot of trouble," you may  
say. But it is worth the trouble, for  
the reward is health.

By the new, up-to-date police signal system which Toronto officially took over the other day, with considerable ceremony, the Police Department is enabled to transmit a description of a stolen car, hold-up man or bandit to every man on his lot; this new system is also available for service every moment of the night or day for the conduct of ordinary routine business and communication of orders. The system is spread over the entire 32.8 square miles of city area, and is divided into twelve police divisions. The pictures: upper left shows former Police Chief Col. Grasset receiving the golden key from W. R. Ostrom, District Manager of the Northern Electric Company who landed the system over to the Police Department; right, typical installation at street corner showing officer turning in a call. Lower left, the main switchboard and recording instruments; right, Col. Grasset putting in the first call, Mayor Wemp and Col. Draper, Chief of Police are seen at his left.

## The Raymond Recorder

S. I. MAY, Editor and Prop.

Non-political. Partisan only in the interests of Raymond and district.  
Advertising rates on application.

### THEIR EYES ARE UPON US

Because of the sugar industry and the experiments made last winter in feeding and fattening baby beef, mutton and hogs, Raymond is becoming widely known throughout Alberta and even farther.

There are many things to attract people to Raymond. We have all the advantages of nature in the way of climate, good productive soil, etc., and we also have the added advantage of irrigation throughout the greater part of the district.

We also have the facilities in the big Sugar Mill and through the rail service of the C.P.R. of easy and quick access to markets, which means a great deal in the beet raising and the livestock industry, which is sure to grow and expand here.

As citizens, these facts should be kept in mind. We should do all we can to make the town a brighter, better and neier place in which to live. Well kept yards, well painted houses, good fences, and a spirit of contentment and optimism will breed an air of enthusiasm that the visitor will carry away with him, and when others ask about Raymond he cannot help but boost because of what he sees and feels and hears while here.

We have no reason to be anything but proud, hopeful and thankful that we live in such a good district. We have disappointments, of course. But our worst bumps are our disillusionments. Playing a chance game, instead of making it a certain paying proposition.

This district offers opportunities that will make each year show a good profit, just as soon as we adopt a program of diversification that will give us insurance against drouth, hail, etc.

### OUTSIDE INVESTMENTS IN CANADA ESTIMATED NEARLY SIX BILLIONS

Ottawa, Ont. May 6 (Special to the Recorder)—The total British and Foreign capital invested in Canada on January 1st, 1929 was \$5,904,169,000 according to an estimate made public by the Dominion Bureau of Statistics. Canadians had invested abroad \$1,745,816,977 on that date.

The report states: It is estimated that the total British and foreign investment of capital in Canada on January 1st, 1929 as \$5,904,169,000. Of this sum \$2,197,682,000 as British, \$3,470,087,000 as from the United States and \$236,400,000 was from other countries.

Total indebtedness to outside countries increased by approximately \$150,000,000 in 1928. Our indebtedness to United States increased by \$166,000,000 while to Great Britain was reduced by \$17,000,000. New Canadian issues in which outside countries participated including stock rights, amounted to about \$720,000,000. Of this sum Canadian themselves took \$414,000,000 United States \$241,000,000 Great Britain \$62,000,000 and other countries \$3,000,000. In addition outside countries purchased old Canadian securities on the stock exchange or made direct investments in Canada amounting to \$10,000,000 of which the United States took \$81,000,000 Great Britain \$17,000,000 and other countries \$2,000,000.

During the last two years there has been a continuation of the movement of outside capital into the new ventures of the Dominion. Such investments affected a wide range of interests, including chain stores, banks, investments and finance houses, tourist resorts, hotels recreations camps, public utilities, assurance companies and various industries. Among the latter were mining, oils, pulp and paper, breweries, aircraft, textiles, motor cars and various metal industries.

### News Notes

Lee Brewerton was in Lethbridge on Wednesday.

Monday was Arbor Day and a Bank Holiday.

Don't forget Quarterly Conference on Saturday and Sunday, May 10 and 11. The first session will be on Saturday evening at 8 p.m.

R. H. Eaton, Superintendent and General Manager of T. Eaton Co. Ltd. died at Toronto last Thursday.

### FRIGIDAIRE DEMONSTRATION

A public demonstration of the many and varied uses of the Frigidaire Electric Refrigerator will be held in the Second Ward Chapel commencing at 2 p.m. Tuesday May 13th.

A lady demonstrator will be in attendance, and even if you now own a Frigidaire it will be time well spent to attend this demonstration and see the latest approved methods of frozen desserts, sherbets, salads, etc.

If you do not own an electric refrigerator, you should by all means attend and see how much simpler the summer housekeeping is when you need not worry about the heat spoiling foods, melting butter and souring milk.

Ask "Boh" Graham about all the details.

### News Notes

E. G. Braithwaite and Ross R. May were Raymond visitors on Wednesday this week.

Mr. and Mrs. T. Geo. Wood and party were Lethbridge visitors Tuesday.

C. H. Elder sold a four bottom breaker Tractor plow to Louis Hanson on Monday this week.

Mark Austin of the Utah-Idaho Sugar Co. is in Raymond on Sugar Co. business for a few days.

Boh Graham sold a White Truck, 1 1/2 ton capacity to Louis Hansen last week.

Quarterly Conference will convene in the Stake House at 8 p.m. Saturday and three meetings on Sunday. Visitors are expected from Salt Lake.

The postponed Golf Tournament will be held on Sunday, weather permitting. All participants will please take notice.

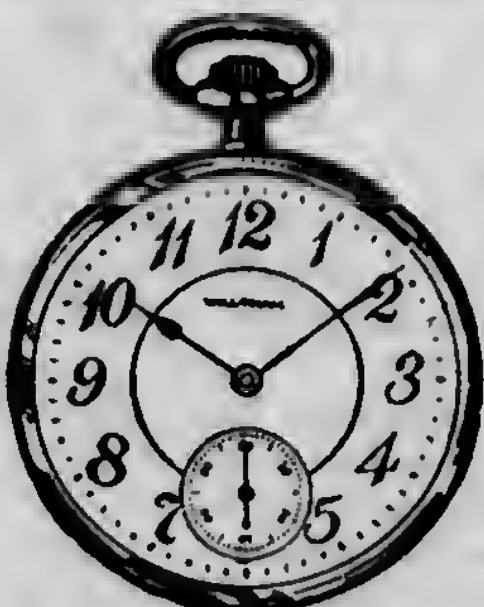

A new Frigidaire was installed this week in the home of Mr. and Mrs. O. H. Snow. Bob Graham is agent for these machines.

S. B. Card is building a tennis court on his lot which will be one of the best possible. The uprights for the wire netting are 2" pipe and will last forever. The other items will be just as good and durable.

### ALBERTA BOYS WORK BOARD

The Alberta Boys Work Board are already making preparations for their 1930 camping program. It is confidently expected that there will be in the neighborhood of fifteen district boys camps in as many localities throughout the province. These camps present an opportunity for purposeful character building activities for Trail Ranger and Tuxis Boys as well as those boys who come from Sunday School Classes from the various denominations. Camp Tuxis, the provincial leadership training camp for older boys of 16 years of age or more, will be held from July 7-16 at Kasots Bench, Sylvan Lake. The leadership will be the best available. Plans for this camp are rapidly taking shape. Nine days in the out-of-doors at one of Alberta's beauty spots with all the varied activities of a broad camping program are assured for those who share in the fine fellowship of this camp.

Well-directed camps are being recognized as vital mediums in the educational process today. Conduct and ideals as well as information are found in the education gained through camping. It is hoped that in the near future all teen-age boys will be able to spend part of each summer in a well-directed, well-equipped boys' camp.

## Raymond Hi Lights

The Seniors have received their new  
class rings and are displaying them to  
the best of their ability. Everyone  
agrees that the rings are lovely, and  
the Juniors anxiously wait for theirs.

Some time ago the local dentist an-  
nounced an essay contest, the essay  
to be written by the school students  
on the subject of mouth health. The  
judges included Mr. Craig of the Leth-  
bridge Herald and Mr. Morgan, In-  
spector of schools.

The winners from the Raymond  
district were: First, Wayne Wooley,  
Grade XII; second Eugene Marquard-  
son, Grade XII; third, Beatrice Card,  
Grade XI.

Last Friday the basketball team  
and coach were presented with bronze  
medals as a token of the appreciation  
of the student body.

## WEED CONTROL PROGRAMME

The Alberta Department of Agri-  
culture has now completed its plans  
for the weed control programme of 1930.

Under the Field Crops Branch the  
Province has been divided into fifteen  
districts. In each of these districts a  
Field Supervisor will be stationed.  
His duties will be to co-operate with  
Weed Inspectors appointed by Mun-  
icipal Councils, and in Local Im-  
provement Districts, in general Weed Con-  
trol work and the enforcement of the  
Noxious Weed Act.

Farmers of the Province are urged  
to avail themselves of the services of  
these men. Their office centres are  
being advertised in this issue.

King Motors are installing a new  
Air Pressure Grease Gun this week.  
With the new Holst and this new gun,  
you can get the same of service on  
any part of your car in this up-to-  
date and modern garage.

Premier Rt. Hon. W. L. McKenzie  
King created a sensation in the  
House of Commons on Tuesday when  
he announced a general election as  
soon as possible. Some people look for  
it in July, although no date has been  
set as yet.

## 500 LIVES SNUFFED OUT BY EARTHQUAKE

TREMOR IN BURMA CENTRES IN  
PEGU; PEOPLE IN PANIC

RANGOON, BURMA, May 6.—The  
Exchange Telegraph Agency said to-  
day that the entire town of Pegu was  
wiped out by an earthquake and sub-  
sequent tidal wave. With number of  
dead estimated at 1,000. The town  
presents a desolate picture with pub-  
lic buildings and homes destroyed.  
Practically the whole population is  
homeless.

Five hundred persons were report-  
ed dead today in an earthquake which  
broke hundreds of Burma buildings  
into ruins. Fifty persons were killed  
in Rangoon, but the mouth of the Hle-  
ing river, but at least 400 lives were  
lost at Pegu, 75 miles north of Ran-  
goon. Other Burmese towns suffer-  
ed severely.

## STUBBLE BURNER IS SENT TO AFRICA FOR USE AGAINST PESTS

Medicine Hat, May 3.—An unusual  
exportation of Alberta made goods  
was made from here recently in the  
shipment of a stubble burner to Com-  
pagnie D'Exportation at Cas-  
ablanca, Morocco, North Africa, as an  
experiment to find some way of cop-  
ing with the plagues of locusts in that  
country.

Previously unable to find anything  
that would totally destroy young loc-  
usts and locust eggs the company  
wrote to Medicine Hat to ascertain  
the uses to which the stubble burner  
could be put to. Apparently satisfied  
that this implement was the machine  
required an order was placed.

The burner was shipped to Casab-  
lanca, via New York, and was man-  
ufactured entirely in Medicine Hat.  
Calgary Herald.

### News Notes

Lee and George Brewerton were Magrath visitors Monday, on business in connection with the theatre there.

Frank Shaw wheeled out a new Chevrolet Standard Sedan from Rutt Motors on Wednesday this week.

M. R. Woolf and Percy Poulsen were in Staveland Wednesday afternoon for the Annual Baseball Meeting of A.A.A. They returned the same night.

### Here and There

(498)

Speaking on Canada's stake in the Pacific before the Montreal Canadian Club recently, Hon. Newton W. Rowell, vice-chairman of the Canadian Institute of International Affairs, took occasion to compliment Canadian Pacific Steamships on their work on that ocean. He said: "There are many lines of steamers plying from North America to the Orient and one of the best is still the Canadian Pacific Steamships; there is no other freight and passenger service on the Pacific that to-day is equal to that of the Canadian Pacific Company. We owe a great deal to that institution in developing trade."

Visiting sportsmen coming to New Brunswick for hunting and fishing have almost doubled in the past five years, according to figures given out by Hon. G. H. Prince, Deputy Minister of Lands and Mines of the province.

Additional air mail service was inaugurated between Winnipeg, Calgary and Edmonton early in March by the Canadian Post Office Department, leaving only the Rocky Mountains and the Pacific Coast and from western Ontario to Winnipeg unserved by air mail. It is expected that at least a portion of this territory will be linked during the coming summer.

Preparations are being made for taking another decennial census in Canada which is due in 1931. The census will give employment to 15,000 persons. It was first taken in 1871 and has been taken every ten years since then.

M. M. Robinson, chairman of the committee of management of the British Empire Games, to be held at Hamilton next August, is already assured of the success of the meeting. Interviewed aboard S.S. Montclair recently, he stated that not only was he sure that there would be 200 British athletes at the games, but that the meet would be the biggest of its kind Canada had ever known.

"One of the objects of the visit of the English public school headmasters party, due to arrive at Saint John aboard S.S. Duchess of Bedford, April 5, is to improve the teaching of Canadian history in Great Britain," says Kenneth Lindsay, who is travelling ahead of the party. It will consist of 15 headmasters and they will visit nine Canadian universities from the Maritimes to British Columbia.

Accepting regular radio programmes made outside the United States for the first time, National Broadcasting Company of New York has come to an agreement with the Canadian Pacific Railway under which the latter will supply WJZ, and associated stations in the richest and most thickly populated sections of the United States, with programmes of Canadian Pacific "Cheerful and good" music. These will be broadcast Sunday evenings from 9:15 to 9:45, Eastern standard time, commencing April 6. A second series will be broadcast by the American company from its stations consisting of Royal York Hotel orchestra dance music every Wednesday midnight, Eastern standard time, commencing April 9.

NO MATTER WHAT POSITION YOU WORK IN

G.W.G. Overalls are made here in the West — the only overalls equipped with Stop-Loss Pockets produced in Canada. Once you've used them you'll never go back to overalls with ordinary pockets.

STOCKED AND SOLD EXCLUSIVELY BY

The Broadway Store, Raymond, Alta.

### U.F.W.A. Notes

The U.F.W.A. members were pleasantly entertained and instructed at their May 1st meeting by David Allred, who spoke to them on the "Habit and Customs of the Samoans". Mr. Allred also displayed a number of Curloa native dresses, beads, embroidery work, a miniature boat, etc. A reading by Miss Jennie VanOrman, a piano solo by Miss Nora Heggie and the reading of the bulletin on "Young Peoples Work," by Mrs. Phoebe Dahl was also much appreciated.

In addition to the above program the following items of business were carried out: The association voted to sponsor the cleaning up of the cemetery and the establishment of an annual Memorial Day. Mrs. R. A. Nalder, Mrs. Phoebe Evans and Mrs. Jane Brewerton were selected as a committee to push the cemetery project. Miss Velma Nalder was elected delegate to represent Raymond at the Young People's Conference to be held at the University of Alberta June 4th to 11th.

The members went on record favoring the establishment of a government health unit in this section of the province and will work to that end. At the conclusion of the meeting a delicious lunch was served by Mrs. T. O. King, with Mrs. Oral King and Mrs. Fern King assisting hostesses. The next meeting will be held June 5th at the home of Mrs. A. D. Wooley.

### A MANACE TO HEALTH

Our old enemy the House Fly will soon be with us again. He never fails to come around when the warm weather arrives. To annoy people and to cause trouble seems to be his special aim in life. From the baby's face to father's bald head, to the milk piteer and to the food are some of his journeys well known to all of us. Yet in spite of this, and possibly because he is seen too often, it is doubtful if many of us ever fully realize the danger and filthy ways of this common pest.

The house fly lays her eggs (120 at one time) in any heap of garbage or filth. With a very short incubation (2 weeks) period it can be seen how rapidly flies will multiply unless they are controlled. Naturally the best way to control the fly is to destroy the eggs or maggots before their wings are developed and they can move about rapidly.

Why is it necessary to destroy flies and keep them from hatching? All flies can carry disease germs; they are all filthy in the extreme. The legs of flies are provided with a great many short hairs (100) or bristles and as the fly walks over filth containing disease germs, some of these are collected and held by the hairs. When the fly goes again to take a drink from the milk or touches food, some of the germs will be left behind in the milk or on the food. When these are swallowed later with the food by the baby or anyone else, they may cause such diseases as typhoid, diarrhoea, dysentery, or other illness.

Experiments with the house fly prove that it can be best controlled by sprinkling the infested parts of the garbage with 3 p.c. solution of Lym-an's Disinfectant. One gallon of disinfectant makes 233 gallons of the solution and costs about 60c. per year per horse. The solution should be applied about every second day or sufficiently often to ensure that all maggots are destroyed.

For the few that will escape this treatment, a cone trap should be employed. Placed in a sunny place, with tasty bait such as molasses and water it will account for most of those left.

Write to the Red Cross Society for free literature, 407 Civic Block Edmonton.

## The Wonderful New Oliver One-Way Plow

BUILT WITH GREAT STRENGTH

Great strength fits the Oliver One-way Gold Digger Plow for the hard work it performs. The strong, rigid frame is made of high carbon steel while all heavy duty castings — axles, brackets, clevis and furrow wheel arm—are cast steel. The Gold Digger is light draft due to special design.

DETACHABLE RIM EXTENSIONS

The V-tire wheels have detachable rim extensions which are quickly and easily taken off or attached. It is very important when working in hard ground, that these extensions can be detached so as to allow the wheels to penetrate sufficiently to obtain a good grip on the surface of the ground.
